

## Action Needed!

We have recently been informed that the House of Representatives is scheduled to vote on the Pain Capable Unborn Child Protection Act (H.R. 36) as soon as next Tuesday, October 3. Your help is urgently needed to mobilize your networks to urge your Representatives to support this life-saving legislation.

The full text of the alert is here<<https://www.votervoice.net/BroadcastLinks/j6gFMIT70Ws3xyNszuAEJA>>. As you will see it contains the usual email and twitter messaging links. This alert also has a phone icon which you can click to quickly locate your member's phone number and view a suggested phone script. As time is short before the vote we would be grateful if you could call your members in addition to sending a written message. Your voice as a community leader is persuasive and we appreciate anything you can do to support this legislation and encourage your networks to do the same. Remember you can repost anything from our Facebook page and Twitter stream which you will find @HumanLifeAction on those platforms.

Consensus exists among most Americans about protecting five-month old unborn children and their mothers from the dangers of late-term abortion. As Cardinal Dolan said in his September 29 letter to the House<<https://www.votervoice.net/BroadcastLinks/6p1xRTWI44quXyPAI7jiwg>>, "[a]lthough we want, and will continue to work for, protections in law for human life from the beginning of its existence, for several reasons we think the proposed ban on abortion at 20 weeks after fertilization is a place to begin uniting Americans who see themselves as 'pro-life' and as 'pro-choice'."

Friends, we have wonderful opportunity before the vote to help build the culture of life in law. We are more grateful than we can say for your assistance. God bless you for continuing to stand with us. Together we will be heard!

Thanks!

Jennifer
